

## Sandy City Beautification Contest

by Ray Lindenburg, Planning Department

Do you make the extra effort to have a beautiful landscape or know someone who does? Then you should consider entering the 2006 Sandy City Beautification Contest. The Sandy Beautification Committee appreciates all those residents and businesses who make the extra effort to beautify the City. We invite all businesses and residents who take pride in their landscape to enter the contest.

Individual and group awards are presented in the following categories:

- Best Neighborhood
- Water Wise Landscaping
- Overall Attractiveness
- Water Features
- Most Improved

### Official Entry Form

Name: \_\_\_\_\_  
 Address: \_\_\_\_\_

Please check a box below:

- ☐ I am willing to have my name and address published as a winner of this contest.
- ☐ I am **NOT** willing to have my name and address published as a winner of this contest.

### Road Project Update continued

#### Wasatch Blvd Trail

The final phase of this project will include the installation of curb, gutter, and sidewalk on the eastside of Wasatch Blvd from Eagle View Drive to just north of Eagle Crest Circle. Construction will begin in July and be completed by the end of August.

#### 9400 South Waterline and UTA TRAX Station

The new waterline has been installed with lateral connections. The entire road surface will be milled and overlaid by the end of August. In addition, Geneva Rock will complete the new TRAX station at 150 East across from Jordan Commons by the end of August.

#### 2006 Sandy City Overlay Projects:

The following streets will be milled and overlaid in July and August by Geneva Rock:

- 10600 South from just east of State Street to the tracks
- 8600 South from 700 - 1000 East
- 11400 South from 1700 East to Jolley Acres Circle
- 2000 East from 10600 - 10980 South

#### POMA

##### (Point of the Mountain Aqueduct):

Pipe is currently being installed along 1700 East and Wasatch Blvd. with projected completion on 1700 East in August of 2006. The Wasatch Blvd. portion will take longer due to existing utilities and the installation of a 30 inch line and is due to be completed in October of 2006, which will complete the construction of the POMA line through Sandy. Currently, more than five miles of 60 inch pipeline has been installed in Sandy City.
